

Sky Class have settled in well to their new class and have had lots of fun learning about our topic `Down on the Farm`. In science we have been making mud pies, changing the soil from dry to wet. We have also been practicing our gross motor skills, learning how to ride scooters and bikes in the big playground.

We have all been swimming this term, gaining confidence in the water. Some of us are learning to kick our legs and use our arms and others are learning to tread water.

To celebrate Black History Month, we took part in a drumming workshop which we thoroughly enjoyed!
