

Class Lime News

Hello Everyone!

This term our topic is: 'I Like..' and we've been enjoying so many new and exciting activities .

We've been working on developing our communication skills and have participated in fun and motivating Attention Autism activities. We've been enjoying Intensive Interaction sessions at Soft-Play and have taken part in Sensology activities by choosing and exploring sensory props.

We've had a great time during Dance Therapy and Music Therapy sessions different body parts and movements they can make. In Music we've been playing amazing instruments. During our Sensory Play afternoons we've been exploring lots of messy media.

We hope you will be able to come and see us performing on the stage our Christmas production.
