

# Magenta Class

We have had lots of fun getting to know our new class and our new teachers and friends.

We have loved exploring our outside learning area - using different equipment and enjoying the big space to run around in the playground.

In our classroom, we have been learning to develop social and independent skills through play. We are learning to take turns, participate in counting and shape songs, practise writing our names, learning to use the toilet and cooking activities.

We have been visiting all of our specialist rooms - such as the Soft Play room where we can climb and slide and jump.

Wishing you all a fantastic term ahead, from everyone in Magenta Class xxx
