

Class Lime News

Hello Everyone!

We have had a great term, full of fun, and engaging activities. Our topic was: `Textures` and the story that we listened to in reading lessons was: `We Are Going on a Bear Hunt` by M. Rosen. We've been really enjoying using resonance board as well as choosing and exploring various sensory props related to the illustrations from the story.

We were very busy in February and March. We've made a dragon and we've taken part in Chinese New Year parade. We've also had a great time in Valentine's Day disco. During Science Week, we've been exploring many exciting experiments.

We've been having a great time during our Swimming sessions this term and every day in the mornings we've been participating in Sherborne exercises lessons. It was lovely to share what we can do with our parents when they came to visit us in classes this term.

We wish you all lovely Spring break!
