

Greetings from Rose Class. We have been very busy this term with our topics: 'To infinity and beyond' and 'Lights, Camera, Action'. We have explored some of the planets and made a display for the noticeboard in our classroom.

We enjoyed playing in the snow and carried out a science experiment. We collected snow in a bowl and put the bowl on the radiator. We predicted what might happen and then tested out our predictions.

Rose Class

We are continuing to develop our interaction and sharing skills. In our topic this term we are creating a play based on the Wizard of Oz. We are going to act out the play and make scenery and props.

Rose Class cook each week and on a Wednesday we choose what we are going to cook, make a shopping list and walk to the Co-op shop to buy the ingredients. We have made different breakfasts e.g. beans and mushrooms on toast, porridge and pancakes. We are now making a variety of snacks e.g. pizza, tacos and egg and vegetable muffins.
