

This term, our topics in Fuchsia Class have been Space and Lights, Camera, Action. During our Space topic we made playdough aliens, explored green gooey alien slime and played with astronauts and rocket ships. For our Lights, Camera, Action topic our favourite activity as a class was our Science carousel where we explored light up toys in the dark tent, played different instruments loudly and quietly, felt different textured fabrics and poured and filled sensory media into various pots and clear tubes. We have also been preparing for Easter by making some yummy Easter recipes, including chocolate nests.

Wishing everyone a safe and relaxing Easter Break! From everyone  
in Fuchsia Class
