

Wow, doesn't time fly! We are now nearing the end of the year and we've had so much fun!

This term, we are learning about our body's 'Senses' and have had lots of fun exploring touch, taste, smell, listening and looking! We have been working really hard on our communication, making choices for our favorite items and activities!

We are excited to do all of the fun things left this year such as our end of year trip, as well as celebration of achievement, and sports day!
