

Our Topic this half term has been Around the World. We thought about different countries and climates e.g. Africa, India, and The Antarctic. We dressed up in different costumes, cooked and tasted different foods and sorted clothes for different temperatures.

Our end of term outing was very exciting, playing Crazy Golf at Sparrows Den and then takeaway McDonalds. We all had a good time and enjoyed being out with our friends.

Rose Class

We had a good time competing in Sports Day alongside Turquoise Class. We had to balance along a beam, jump over hurdles, throw bean bags into a hoop and manoeuvre a hand bike back to the start.

During the first half of the summer term our topic was 'Weather'. We explored the weather around the story of Noah's Ark. We used the construction material Happy Architect to make arks, and in maths small world animals to pair and match.
