

Computer/ICT- Art-2

Key words

- Touch
- On/off
- Shapes
- Dark
- Shine
- Den
- Build

Investigate Shadows

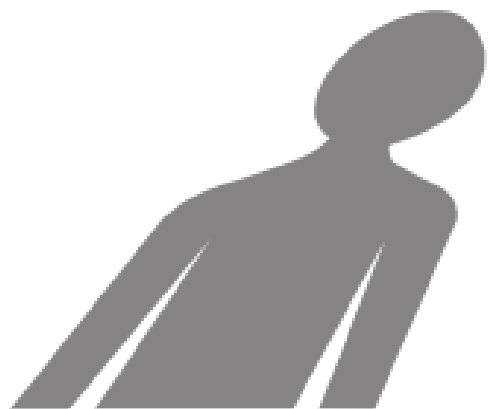

1. Use a touch to create the shadows - make shapes of well-known objects.
2. Can they guess what shapes you are making?
3. What shapes can they make?

Extension ideas:

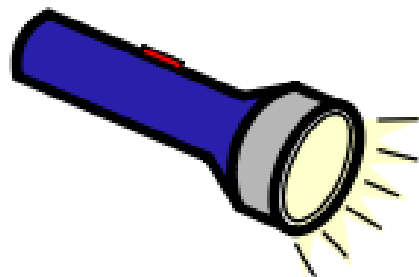

- Make a den to create darkness - look at books in the den.
- Make some sensory boxes - collect boxes and make a hole in the box big enough to put a hand in. Place an object in the box and ask them to feel inside and guess the object - use the torch to peek inside.

Resources you will need

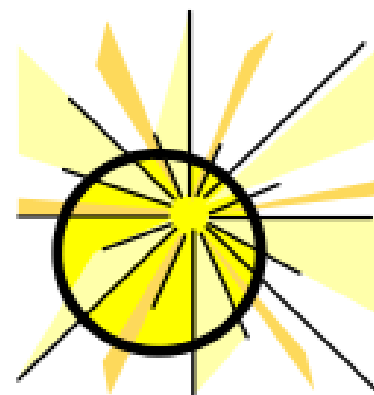

- Torch
- A Wall
- Blankets for over the sofa
- Cushions
