

Activity – MATHS hole punching counting numbers

Key areas of learning:

- Math
- Fine motor skills

What you will need:

- Scissors
- coloured card is more preferable or (suggestion cereal box)
- Cut out three cards- or try cutting out number shapes
- pens

Keywords:

How many, count, numbers, in, box, tong, straw, suck on straw

What to do:

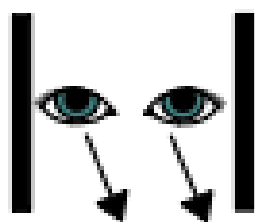

- Label 1 on card and then 2 on the other card etc.
- Adult to role model punching one hole on one card and two holes on the other card
- Child turn to hole punch to match the right number written on the colour card.
- If you are cutting out number shapes ask child to find number 5 and punch 5 holes on number 5 for example

Extension:

- Extend numbers higher up to 20 or further
