

## Activity – Ice drawing

### Key areas of learning:

- Fine motor skills
- English
- Science

### What you will need:

- Lolly sticks, ice cube tray, food colouring or children's paint, paper.

### Keywords:

Colours (red, yellow, green, blue)

### What to do:

- Mix water and the food colouring together to make a range of colours.
- Pour the coloured water into an ice cube tray place lolly sticks inside the water making sure they are upright. Put in the freezer leave overnight.
- Take the ice out when ready to start drawing.
- Encourage your child to mark make on paper. Model writing their name, drawing animals etc.

### Extension:

What colours can you see? How many colours are there? Can you mix the colours? What colour has it made? Is the ice hot or cold?
