

Activity – Science- making my own rainforest

Key areas of learning:

- Science: rainforest animal's poster

What you will need:

- Animals shapes, poster of the rainforest

Keywords:

- cut, more, animal's name

What to do:

- Adults will support children to cut the animals if they can't do it independently. Then, children will place the animals wherever they want on the poster. At this point adults will name the animals.

Extension:

-
