

It's spring time!

This term the Sensory Pathway are exploring a variety of activities based around the topic 'Once upon a time' where we have the opportunity to dive deeper into a few of our favourite traditional fairy tales and rhymes.

We will be exploring props, real life objects, and participating in role play activities to help us gain a better understanding the traditional stories in reading. We are using our math skills and knowledge to sort objects by size, shape or colour, and build the castles and towers for the prince and princesses.

Pupils in the sensory pathway continue to enjoy the community visits, swimming and using the outside learning environments in and around school, especially now the weather is getting nicer.

We look forward to seeing you for class visits soon,
The Sensory Pathway Team.
