

Science chemistry/cookery

Lesson part 1

1. Add one cup flour to bowl
2. Add $\frac{1}{2}$ cup butter to bowl
3. Add $\frac{1}{2}$ cup sugar to bowl
4. Mix together to make a dough
5. Roll the dough and cut the shapes
6. Put on a baking tray and bake in an oven for 10/15 minutes until golden.

Lesson part 2

1. Add icing sugar to a bowl and add a few drop of water to make an icing paste
2. Add your choice of food colouring
3. Decorate your bus/car/bike
4. Eat and enjoy

Extension ideas:

Discuss the colours match them to the bottles

Match to a symbol

Look at the separate parts of a bus/car etc use different colours for different parts

Make bigger/little, larger/smaller ones

Explore the flavour/smell. Add different essences to change the taste/smell. Which do you like and which don't you like. Why?
