

Happy New Year!

We hope you have all had a restful holiday and are ready to start a new year of learning! This term, our topic is “Seasons” and we will be exploring fun activities around this.

As the weather changes, we will be getting out of school as much as possible to explore our community including nature walks and trips out. We will also be exploring our outdoor environments around school (especially our new Forest School!), making the most of any sensory opportunities that come our way! As the weather is still wet and cold, we ask you please dress your children appropriately for this and send in waterproofs and wellies.

Thank you for your continued support!

The Sensory Pathway team
