

Welcome back everyone!

We hope you have all had a restful Easter holiday and are ready to start the new Summer term with exciting learning! This term, our topic is "Lets go to the Zoo" and we will be exploring fun activities around this. We will be doing lots of creative learning sessions such as learning about different animals, where they live, what they eat etc. with lots of hands on sensory experiences as well as exploring our local community through trips and going out to various exciting places. As the weather changes and gets warmer, we will be getting out of school as much as possible and we must remember to be sun safe; slip slop slap and wrap! We are asking parents to provide your children with the resources needed to keep them safe in the sun. e.g. a hat or sun cream.

Thank you for your continued support!

The Sensory Pathway team
