

Me in the World

Activity – Finding numbers

Key areas of learning:

- maths
- communication

What you will need:

- list of numbers
- pencil
- paper

Keywords:

- house, number, more, less, find

What to do:

- Take a walk along a road
- Ask your child to find a number on the list
- Tick the number off the list
- How many numbers can your child find?

Extension:

- Ask your child what is one more than the number they have found
- Ask your child what is one less
- Encourage your child to count on from the number they have found
- Encourage your child to find other numbers in their community, for example, how many buses can they count? How many red cars can they find?
