

Pupil premium strategy statement

This statement details our school's use of pupil premium (and recovery premium for the 2024 to 2025 academic year) funding to help improve the attainment of our disadvantaged pupils.

It outlines our pupil premium strategy, how we intend to spend the funding in this academic year and the effect that last year's spending of pupil premium had within our school.

Part A: Pupil premium strategy plan

Statement of intent

As a school, we believe that disadvantaged pupils should be given the same opportunities as their peers when in school and to access a range of new experiences. Our data suggests disadvantaged pupils make at least the same progress as their peers when they are receiving consistently high quality lessons.

It is therefore a key priority of the school that teachers and classroom staff are supported through high quality CPD, resources and up to date research to ensure that teachers can teach consistently high quality lessons.

To support the families of disadvantaged pupils to ensure that pupils are in school and parents use similar approaches to support their children when at home. Strategies are shared through daily communication through the home/school book or phone calls, personalised plan meetings, annual reviews, family learning sessions, parent workshops as well as a range of activities provided for parents to experience activities that they may otherwise not be able to access in the wider community.

The Pupil Premium Strategic plan is broken down in to three key areas to support disadvantaged pupils to make at least the expected progress across the curriculum.

- 1) Teaching – ensuring teachers and class based staff have access to high quality CPD with up to date research to ensure teachers and support staff use a consistent approach and are aware of how to best meet the needs of their pupils across all subjects including learning outside of the classroom, in specialist rooms and in the local community. Through relevant CPD, teaching will remain at the expected level or above and will ensure disadvantaged pupils continue to make at least expected progress.
- 2) Targeted academic support – through the Pupil Premium spending, Red Gates will continue to develop and engage parents and carers in their child’s education, supporting them to provide consistency in strategies between home and school. Pupils will have access to carefully planned inclusion and cross-pathway working, where they will have the ability to develop their social skills with a wider range of peers supported by highly trained staff. Staff will support pupils to access their learning beyond the classroom including in specialist rooms and in the local community to support the generalisation of skills.
- 3) Wider strategies – to support disadvantaged pupils we use a holistic approach and key members of staff support pupils and their families which includes; OT, SaLT, Music therapist, Canine Therapist, behaviour lead, play lead, Communication Support Assistants and family support team. These wider strategies supported and implemented by key members of staff will allow for pupils to develop their independence, self-regulation social skills and communication.

Challenges

This details the key challenges to achievement that we have identified among our disadvantaged pupils.

Challenge number	Detail of challenge
1	Pupils have a range of severe learning difficulties.
2	Pupils have significant communication and interaction difficulties.
3	Pupils accessing learning at outside the classroom
4	Ensuring that attendance of disadvantaged pupils is equivalent to their peers.
5	Ensuring pupils have appropriate transport to school.
6	Ensuring pupil's individual needs are met across each pathway.

Intended outcomes

This explains the outcomes we are aiming for **by the end of our current strategy plan**, and how we will measure whether they have been achieved.

Intended outcome	Success criteria
To continue to deliver high quality teaching and learning across all pathways.	<ul style="list-style-type: none">- Teaching and Learning observations across all pathways are at least at the expected standard or above.- Lessons show clear progression and opportunities for pupils to develop, secure and generalise skills.- Disadvantaged pupils continue to make at least expected progress in line with their peers.
To maintain the rate of progress for disadvantaged pupils to ensure they continue to make expected progress in line with their peers.	<ul style="list-style-type: none">- No identifiable gaps in the achievement of progress between disadvantaged pupils and their peers.
To ensure the needs of disadvantaged pupils are consistently met.	<ul style="list-style-type: none">- Pupils are supported where necessary through high quality interventions, access to therapists, communication support team and in school behaviour support.

Activity in this academic year

This details how we intend to spend our pupil premium (and recovery premium funding) **this academic year** to address the challenges listed above.

Part B: Review of outcomes in the previous academic year

Pupil premium strategy outcomes

This details the impact that our pupil premium activity had on pupils in the 2023 to 2024 academic year.

Our internal assessments during 2023/24 indicated that there was little difference in disadvantaged pupils academic and wider development outcomes demonstrating that current strategies in place to support Pupil Premium pupils are effective.

A continual programme of staff CPD contributes to supporting pupils to achieve their outcomes by furthering knowledge of staff teams to better support pupils whilst at school. This training is often pathway specific focussing on specific strategies to support the learning needs of pupils in that pathway to maximise the impact on pupils learning. Progress in computing was evident from the end of year assessments across the school, demonstrating the identified strategies had led to an increase in staff knowledge of how to effectively teach computing across the pathways.

The embedding of Zones of Regulation across the school has supported pupils to develop the ability to self-regulate, resulting in pupils accessing learning for a longer period of time and making good progress towards their intended outcomes.

Parent engagement has developed again and attendance at Parent Workshops, Family Learning sessions and other whole school events has grown. The attendance at these sessions support parents to understand and utilise skills they have learnt at home to support their children generalise skills and to engage in activities that they may otherwise not be able to access in the wider community, e.g. Art Galleries, seeing Santa, creative workshops.
